COIMBATORE KENDRA

August 2023

Dear reader,

The personality of this month is Pujya Swamiji Dayananda Saraswathi, Articles on N.M.R. Subbaraman, Madurai Gandhi, Alladi Ramakrishnan, an Indian physicist and Thriu.V.Kalyanasundaram in Tamil section are featured. Reports on the activities of three schools are also included..

Wish you happy reading.

PERSONALITY OF THE MONTH DAYANANDA SARASWATI

Swami Dayananda Saraswati, born on 15 August 1930 was a renunciate monk of the Hindu Saraswati order of sannyasa. Pujya Swamiji as he was fondly known was a renowned traditional teacher of Advaita Vedanta, and founder of the Arsha Vidya

Gurukulam in Pennsylvania, USA and Coimbatore. He was also the spiritual Guru of Prime Minister Narendra Modi. He was awarded the Padma Bhushan posthumously for his exemplary service to the nation in the field of spiritualism in 2016

His Holiness, Pujya Sri Swami Dayananda Saraswati was born as Natarajan in Manjakkudi in Thiruvarur district of Tamil Nadu on 15 August 1930 to Shri Gopala Iyer and Smt Valambal. He was the eldest of four sons. His early schooling was at the District Board School in Kodavasal. After the completion of his education, Natarajan merely seventeen years old came to Chennai for earning a livelihood, where he learnt English and began his career as a journalist for the weekly magazine.

He also worked for the erstwhile Volkart Brothers (now Voltas Limited) for sometime. He decided to be a fighter pilot at one point and joined the Indian Air Force, but left after six months as he felt suffocated by the regimentation there.

Natarajan became interested in Vedanta. After

listening to the public talks of Swami Chinmayananda in the year 1952, Pujya Swamiji became actively involved with the newly formed Chinmaya Mission in various roles and was appointed Secretary of the Mission within the first year of its inception. He attended Sanskrit classes of P.S. Subramania Iyer, a retired Professor of English. It was Iyer who introduced the meter of chanting the Bhagavad Gita verses that was initially followed by Chinmaya Mission centres, and is followed even today by all the Arsha Vidya centres amongst other centres as well.

In 1955 Natarajan accompanied Swami Chinmayananda to Uttarakashi and helped him in the preparation of a Gita manuscript for publication.

In 1961, with the permission of Swami Chinmayananda, Natarajan went to study under Swami Pranavananda at Gudivada (near Vijayawada) to clarify many of his doubts on Vedanta and self-enquiry. The stay with Swami Pranavananda helped Natarajan learn clearly – that Vedanta is a pramana (a means of knowledge) to know the truth of the Self.

The critical shift in his vision about Vedanta impelled Natarajan to once again study the sastra with Sankara's commentaries. In 1962 he was given Sanyasa by Swami Chinmayananda and was given the name Swami Dayananda Saraswati. In 1963 he

"Give the World the best you have, the best will come back to you ." - Swami Dayananda Saraswati

went to Mumbai, to the newly inaugurated Sandeepany Sadhanalaya of the Chinmaya Mission, Swami Dayananda taught chanting of the Bhagavad Gita and the Upanishads to the students of Sandeepany.

In November 1963 Swami Dayananda undertook a study-pilgrimage to Rishikesh. He spent three years there, studying Brahma Sutras under Swami Tarananda Giri at the Kailash Ashram.

Between 1967 and 1970, Swami Dayananda travelled to different towns and cities in India spreading the teachings of Gita and the Upanishads.

In 1979 Swami Dayananda established a three-year study program at Sandeepany West in Piercy, California. In 1982, he returned to India and continued to spread the message of the Upanishads through public talks and lectures.

Responding to the request of students, devotees and disciples, Swami Dayananda established the Arsha Vidya Gurukulam at Saylorsburg, Pennsylvania in 1986 wherein a three-year residential course was completed in 1990.

Swami Dayananda assisted by his senior disciples has taught ten three-year programs (eight in India and two in the United States) and many of his students from these programs are now teaching all over India and abroad. More than two-hundred of his Sannyasi disciples are teaching Vedanta and Panini system of grammar around the world. They form the Arsha Vidya Sampradaya.

The teaching centres founded by Swami Dayananda offer everyone, regardless of gender or faith an opportunity to study the profound knowledge of Vedanta. The teaching centres conduct outreach

programs for the public at large. At present there are more than sixty centres in India and across the globe in all continents that carry on the tradition of Vedantic teaching under the banner of Arsha Vidya.

In addition to teaching, Swami Dayananda has initiated and supported various philanthropic efforts. He founded the All India Movement for Seva (AIM for Seva) in the year 2000, with the vision of transforming society through a network of Seva, service and caring, to bridge the urban-rural divide, thereby, empowering every person to contribute to the progress of the nation. Empowerment is through value-based education and reaching out to the children of rural India through a network of Chatralayams (Free Student Hostels) and schools.

Dharma Rakshana Samiti was started on 16th of April 1999 by Pujya Sri Dayananda Saraswati. Dharma Rakshana Samiti is a unique organisation for preserving Hinduism, its vision and way of life as the spiritual culture of Bharat, India. This body was founded to protect and preserve the native spiritual culture of India inherited from the rishis and to raise the awareness among Hindus of their Vedic heritage.

Swami Dayananda has promoted the preservation of ancient cultures and religious and spiritual practices of India that have survived several millennia yet struggle in modern times due to lack of support. He has started several Veda Pathshalas (Centers of learning of Vedas) for the preservation of Vedas and Agamas to prevent their rapid extinction due to a lack of infrastructure for learning.

Swami Dayananda had appointed 35 oduvars in ancient Siva temples and paid them monthly allowance to sing the Panniru Tirumurai, songs explaining Saiva Siddhanta philosophy

N.M.R. SUBBARAMAN 'Madurai Gandhi'

A doyen of Gandhian philosophy and a great freedom fighter N.M.R. Subbaraman was popularly known as 'Madurai Gandhi'.

He was born on 14 August 1905 at Madurai in Tamilnadu as the second son of N.M. Rayalu Iyer. He was an

ardent follower of Gandhiji and his ideals created a tremendous impact on his life. That is why in 1922, he refused to go to London for higher studies and joined the freedom struggle.

In 1923, he became a primary member of the Madurai District Congress Committee and was elected the President in 1925. He was instrumental

The earth should not be taken for granted. you have no right to abuse it and you can't disuse it. make sure that you are a contributor , not merely a consumer" - Swami Dayananda Saraswati

in selecting 27 youths from Madurai to participate in the Vedaranyam Salt March in 1930. In the same year, he participated in Toddy Shop picketing along with his wife and courted arrest. He took part in all the Satyagraha Movements of Gandhiji. His belief in Gandhiji's ideology and programs was firm and unflinching.

He was elected Chairman of Madurai Municipality from 1935 to 1942. He also held positions as a member of the Madras Legislative Assembly before and after independence. He was elected to the Lok Sabha from Madurai Constituency from 1962 to 1967.

He was deeply committed to the cause of the emancipation of Harijans. His work among Harijans to bring them into the mainstream of socio-political life is an example of his genuine concerns for their plight and his relentless efforts to ameliorate their miseries. Through Tamilnadu Harijan Sevak Sangh, a unit of all India Harijan Sevak Sangh founded by

Gandhiji, N.M.R. Subbaraman was instrumental in establishing a chain of Harijan Hostels.

N.M.R. Subbaraman also got deeply involved in the Bhoodan Movement started by Vinobaji and donated 100 acres of land.

N.M.R. Subbaraman was the Secretary of the Gandhi Works Publications Committee, which brought out Gandhiji's works in Tamil in 17 volumes and many other unique publications. When Madurai University was established in Madurai, N.M.R. Subbaraman was a Member of the First Senate of the University. He was instrumental in the introduction of a course on Gandhian thoughts for the first time in the country. He was instrumental in establishing the first Gandhi Museum in the country at Madurai. He was also the Chairman of Gandhi Niketan Ashram at T. Kallupatti near Madurai. He was closely associated with Gandhi Gram in Madurai.

He breathed his last on 25 January 1983 but his legacy lives on.

திரு. வி. கலியாணசுந்தரனார்

திருவாரூர் விருத்தாசலம் கலியாணசுந்தரனார் அல்லது திரு. வி. க., அரசியல், சமுதாயம், சமயம் எனப் பல துறைகளிலும் ஈடுபாடுகொண்டு பல நூல்களை எழுதிய தமிழறிஞர். சிறந்த மேடைப் பேச்சாளர். இவரது தமிழ்நடையின் காரணமாக இவர் தமிழ்த்தென்றல் என்ற சிறப்புப் பெயரால்

அழைக்கப்படுகிறார்.

காஞ்சிபுரம் மாவட்டத்தில் துள்ளம்(தண்டலம்) என்னும் சிற்றூரில் விருத்தாசல முதலியார் - சின்னம்மா தம்பதிகளுக்கு ஆறாவது மகனாகப் பிறந்தார்.

கலியாணசுந்தரனாரின் தந்தை இலக்கியப் பயிற்சியும் இசைப்பயிற்சியும் உடையவர். ஆசிரியத் தொழிலுடன் வணிகமும் புரிந்தவர். ஆசிரியராகத் திருவாரூரில் பணி செய்த போது கலியாணசுந்தரமும் அங்கேயே வளர்ந்தார். தொடக்கத்தில் தம் தந்தையிடம் கல்வி பயின்றார். பின்னர் சென்னையில் இராயப்பேட்டையில் தங்கி ஆரியன் தொடக்கப் பள்ளியில் சேர்ந்தார். அதன் பின்னர், 1894-இல் வெஸ்லி பள்ளியில் நான்காம் வகுப்பில் சேர்ந்தார். அங்கு அவருக்கு ஒரு காலும் ஒரு கையும் முடங்கின. இதனால் பள்ளிப் படிப்பு சிறிது காலம் தடைப்பட்டது. படிப்பில் நல்ல திறமையுடையவராக விளங்கினார். 1904-ஆம் ஆண்டில் ஆறாம் படிவத் தேர்வு எழுத முடியாமல் போனது. அத்தோடு அவரது பள்ளிப் படிப்பும் முடிந்தது.

உவெசலி பள்ளியில் ஆசிரியராக இருந்த யாழ்ப்பாணம் நா. கதிரைவேற்பிள்ளை என்ற தமிழறிஞரிடம் தமிழ் பயிலத் தொடங்கினார். அவரிடம் தமிழ் நூல்களை முறையாகப் பயின்று சிறந்த புலமை பெற்றார். அதன் பின்னர் கல்யாணசுந்தரனார் மயிலை தணிகாசல முதலியாரிடம் தமிழ், மற்றும் சைவ நூல்களையும் பாடும் கேட்டார்.

1906-ஆம் ஆண்டில் ஸ்பென்சர் தொழிலகம் என்ற ஆங்கில நிறுவனத்தில் கணக்கர் ஆகச் சேர்ந்தார். அக்காலத்தில், பாலகங்காதர திலகர் போன்றோரின் விடுதலைக் கிளர்ச்சிகளில் ஈடுபாடு கொண்டதனால் அவ்வேலையிலிருந்தும் அவர் நீங்கினார். பின்னர் 1909-இல் ஆயிரம் விளக்கு பகுதியில் உள்ள வெஸ்லியன் பள்ளியில் ஆசிரியராகச் சேர்ந்து ஆறு ஆண்டுகள் பணி புரிந்தார். இராயப்பேட்டை வெஸ்லி கல்லூரியில் தலைமை ஆசிரியராகச் சேர்ந்தார். நாட்டிற்கு உழைப்பதற்காக அவர் அப்பணியில் இருந்து விலகினார். பின்னர் தேசபக்தன் என்ற பத்திரிகையில் இரண்டரை ஆண்டுகள் அதன் ஆசிரியராகப் பணி புரிந்தார். அதன் பின்னர் திராவிடன், நவசக்தி போன்ற பத்திரிகைகளில் ஆசிரியராக இருந்து நாட்டு விடுதலைக்குத் தொண்டாற்றினார்.

தொழிற்சங்கத்தைத் தோற்றுவித்துத் தொழிலாளர்களின் உரிமைக்கும் முன்னேற்றத்திற்கும் பாடுபட்டார். சிறந்த மேடைப் பேச்சாளரான இவர் அரசியல், சமுதாயம், சமயம் எனப் பல துறைகளிலும் ஈடுபாடுகொண்டு பல நூல்களை எழுதினார்.

" You want to change others so that you can be free, but it never works that way. Accept others totally, and you free; then you will discover love, which is Your self." - Swami Dayananda Saraswati

ALLADI RAMAKRISHNAN

An Indian physicist

Alladi Ramakrishnan, born on 9 August 1923 was an Indian physicist and the founder of the Institute of Mathematical Sciences (Matscience) in Chennai. He made contributions to stochastic process, particle physics, algebra of matrices, special theory of relativity and quantum mechanics.

Ramakrishnan was born on 9 August 1923 in Madras. His father was the lawyer Sir Alladi Krishnaswami Iyer, who, as a member of the Constituent Assembly, was instrumental in drafting the Constitution of India with other prominent members. He had his early education in P. S. High School, Madras. He graduated from Presidency College, Madras, with B.Sc. (Hons) degree in physics. As a student of the college he had wanted to work under Sir C. V. Raman.

After completing his studies at Presidency College, Ramakrishnan started working with Homi Bhabha at the Tata Institute of Fundamental Research (TIFR). At TIFR, Bhabha introduced him to Cascade Theory and Fluctuation Problem of Cosmic Radiation. In August 1949, he left for England to work under M. S. Bartlett at the University of Manchester. Ramakrishnan's work on Product Densities that he did while at TIFR was good enough work for a PhD. But he stayed in Manchester for two more years to complete his residency requirements. His work on Product Densities appeared in the Proceedings of the Cambridge Philosophical Society.

During the 1950s, he worked on the problem of Fluctuating Density Field, and published a series of eight papers on the subject. During 1957–1958 Ramakrishnan visited the Institute for Advanced

Ramakrishnan is noted for his work in quantum mechanics on giving a prescription for transition from Pauli to Dirac matrices. He also published several papers giving simple but insightful geometric derivations for the Lorentz transformations.

After his return to Madras (Chennai) from the Institute for Advanced Study in 1958, Ramakrishnan began a Theoretical Physics Seminar in his family home. In 1960, nobel laureate Niels Bohr visited India and was impressed by the small group of students trained by Ramakrishnan. While in India, Bohr visited Dr. Ramakrishnan's family home, and inspired the creation of an institute for advanced research. With Bohr's recommendation and with support from the then prime minister of India, Jawaharlal Nehru and C.Subramaniam, Alladi Ramakrishnan set out to create the institute. Institute of Mathematical Sciences (Matscience) was thus created in 1962 with Ramakrishnan as the director. Subrahmanyam Chandrasekhar, nobel laureate and professor at University of Chicago inaugurated the Institute at the Presidency College in the then Madras. Chandrasekhar also agreed to be an Honorary Professor of Astrophysics at the institute and addressed its first students.

Ramakrishnan travelled and lectured extensively during his years at Matscience, holding lectures at over 200 centers of learning. After retiring, Ramakrishnan continued to teach and inspire. In the last decades of his life, several high school students and undergraduates came to his home in Madras to learn with him, subsequently pursuing higher studies in the United States towards a career of research.

Gems of Indian Women CRICKET

Shantha Rangaswamy

Shantha Rangaswamy is the first woman to lead the Indian women's cricket team. In a career spanning 15 years, she featured in 16 Tests and 19 ODIs for India. She scored India's first Test century and hit the first six in the

Indian women's game too. After her playing career, she dabbled in commentary with the All India Radio. She also became the first female representative on the BCCI Apex Council.

Mithali Raj

The recently retired former Indian captain has, over a two-decade-long career, become the face of the women's game. She ended a fabled career with a number of milestones to her name, including being the top run-getter in women's internationals, the leading ODI run-scorer in women's cricket and the most successful captain in the women's game (89 wins out of 155 as captain)

" You can't stand tall emotionally when you are always at the receiver's end"- Swami Dayananda Saraswati

to name a few. After retirement, Mithali has assumed a mentorship role.

Jhulan Goswami

One of the brightest minds to have represented India on the international stage, Jhulan Goswami rewrote the way India saw pace bowling in the women's game. Her contribution to Indian pace bowling was so crucial that even in the last few series she played, she was India's go-to pacer. Jhulan finished with 353 wickets across formats. Of those, 253 wickets have come in ODIs where she is the highest wicket-taker in women's cricket.

Shubhangi Kulkarni

Shubhangi Kulkarni is a former Indian cricketer who featured in 19 Tests and 27 ODIs. Kulkarni captained India in three Test match as well as one ODI match against England. After her time as an active player, she became an administrator.

She was the secretary of the Women's Cricket Association of India when the WCAI merged with the BCCI in 2006.

Diana Edulji

In an 18-year-long career, Diana Edulji represented India in 20 Test matches and 34 ODIs, taking 63 and 46 wickets in the formats respectively. She is still the third highest wicket taker in women's Tests and has the distinction of bowling the most balls by a woman cricketer in Tests -5098+.

Most recently, recognition for Diana Edulji's legacy and contribution to the game was renewed when she was selected by the Supreme Court of India to be part of a Committee of Administrators who handled the working of the BCCI for 33 months.

Shafali Verma

Shafali Verma earned her maiden India call-up at the age of 15 and became the youngest player to feature in a women's T20I. In June 2021, she became the youngest player, male or female, to represent India in all three formats of international cricket when she made her Test and ODI debuts. On 8 October 2022, she became the youngest cricketer to complete 1000 runs in T20 Internationals. Her first silverware came in her first international stint as captain when she led India to victory in the U19 T20 World Cup.

She was the youngest cricketer to complete 1000 runs in T20 Internationals. Her first silverware came in her first international stint as captain when she led India to victory in the U19 T20 World Cup.

Harmanpreet Kaur

Harmanpreet Kaur serves as the captain of the India Women's National Cricket Team in all formats. She plays as an all-rounder for the Indian women's cricket team; and was awarded the Arjuna Award for Cricket in the year 2017 by the Ministry of Youth Affairs and Sports.

Youth Affairs and Sports.

In November 2018, she became the first woman for India to score a century in a Women's Twenty20 International match. In October 2019, during the series against South Africa, she became the first cricketer for India, male or female, to play in 100 international Twenty20 matches.

TRIBUTE TO SWAMI VIVEKANANDA

எவன் பணிகிறானோ அவன் உயர்கிறான். - மார்ட்

The event on July 4 was primarily organized to commemorate the life and teachings of the revered Spiritual leader Swami Vivekananda.

The program commenced with a soulful prayer. Students shared insightful speeches about Swami Vivekananda's remarkable achievements, highlighting his influential message about Hinduism across the globe. A noteworthy mention was made of his historic address at the Chicago conference, where he eloquently expounded upon the greatness of Hindu traditions and culture.

Swami Vivekananda's profound connection with his gurus, Ramakrishna Paramahansa and Sharada Devi was highlighted. The students evoked deep emotions as they spoke about the iconic golden robe

bestowed upon Swami Vivekananda by his spiritual mother.

A young student from the sixth grade, portraying Swami Vivekananda's youthful zeal, emphasized his role as an inspirational figure for the youth of India and also depicted Swami Vivekananda's extraordinary accomplishments and unwavering devotion to his cause which continues to motivate youngsters even today.

Grade 3 and 4 students were encouraged to participate in reciting five of his famous quotes in both English and Tamil. Students of grades 5 to 7 were invited to present ten quotes in both languages.

The program drew to a close, with the students offering flowers to the Statue

KAMARAJAR DAY

Former Chief Minister of Tamil Nadu Shri Kamarajar's Birthday (July 15th) is celebrated as Education Development Day. He played a leading role in reforming the education system in the state, making it one of the best in India. Variety of competitions for students like poem recitation on the

topic of "Karmaveerar Kamarajar", Oratorical competition on the topic, "Kamaraasarin parvaiyil kalvi" was conducted. It was an opportunity for students to develop their skills in public speaking and poetry recitation.

கோவையின் அடையாளங்கள்

விக்டோரியா டவுன்ஹால்

கோயம்புத்தூர் நகர மண்டபம் அல்லது டவுன்ஹால், கோயம்புத்தூரில் உள்ள ஒரு நியோ-பாரம்பரிய நகராட்சி கட்டிடம் ஆகும். ராணி விக்டோரியா, நினைவாக இந்த நகரமண்டபம் 1892 இல் கட்டப்பட்டது. இந்த கட்டிடம் மாநகராட்சி கூட்டங்கள், பொதுக் கூட்டங்கள் மற்றும் ஆர்ப்பாட்டங்கள் மற்றும் குடிமை வரவேற்புகளுக்கு பயன்படுத்தப்பட்டுள்ளது.

இந்த கட்டிடம் அரை ஏக்கரில் நியோ-பாரம்பரிய பாணியில் கட்டப்பட்டுள்ளது. கடினமான செந்நிறக் களிமண்ணால் செய்யப்பட்ட சிவப்பு மங்கனார் ஓடுகளைப் பயன்படுத்தி கூரை கட்டப்பட்டுள்ளது. ஓடுகள் வேயப்பட்ட கூரையை திடமான மரத்தாலான திரள்கட்டுகள் தாங்கி நிற்கின்றன.

இந்த கட்டிடத்தில் இரண்டு தளங்கள் உள்ளன. இந்த மண்டபம் பல ஆண்டுகளாக, மகாத்மா காந்தி மற்றும் சி. ராஜகோபாலாச்சாரி உள்ளிட்ட ஏராளமான பிரமுகர்களுக்கு வருகை தரும் குடிமை வரவேற்புகளை வழங்கின. 1952 ஆம் ஆண்டில் டவுன்ஹால் கட்டிடத்தில் மாவட்ட மத்திய நூலகம் திறக்கப்பட்டது. இக் கட்டிடத்தின் முதல் தளம் மற்றும் இரண்டாம் தளத்திற்கு இடைப்பட்ட பகுதியில் இந்த நூலகம் செயல்பட்டது.

1992 இல் இக்கட்டிடத்தை இடிக்க அரசாங்க உத்தரவு பிறப்பிக்கப்பட்டது. ஆர்வலர்கள் மற்றும் இன்டாக் குழு ஒன்று சேர்ந்து இதை இடிக்காமல் இருப்பதற்கான ஆதரவைப் பெற்றது. பிரச்சாரம் இறுதியில் வெற்றிகரமாக முடிந்தது. மேலும், கட்டிடத்தை புதுப்பிக்க நிறுவனம் ஒப்புக்கொண்டது. இக் கட்டிடத்தை புதுப்பிக்கும் பணி, அதே ஆண்டில் ரூ. 15,00,000 செலவில் செய்யப்பட்டது. தற்போது, இந்த கட்டிடத்தில், கோயம்புத்தூர் மாநகராட்சியின் வழக்கமான கூட்டங்கள் நடைபெறுகிறது.

எல்லோருடைய வாழ்க்கையும் வரலாறு ஆவதில்லை வரலாறாய் ஆனவர்கள் தனக்காக வாழ்ந்ததில்லை. - காமராஜர்

Lakshmipathi, (Secretary, BVB Kendra), are seen in the picture

சுவாமி உலோகாநந்தர் கதைகள்

புகையோடு ஒரு பரிசோதனை

படத்தைப் பார்த்துவிட்டு, ஆ, இது என்ன- நரேன் சிறுவயதிலேயே புகைப் பிடிப்பவன்' என்று யாரும் நினைத்துவிட வேண்டாம். அவனுக்கு எதையும் ஆராய்ந்து பார்த்தால் தான் தூக்கம் வரும்.

நரேன் பெரிய வீட்டுப்பிள்ளை அல்லவா- அவனது அப்பா பெரிய வக்கீல். அதனால் அவரைப் பார்க்கப் பலவிதமான மனிதர்கள் வருவதுண்டு. அவர்கள் எல்லோரையும் நரேனின் தந்தை விசுவநாத தத்தர் நன்கு கவனித்துக் கொள்வார்.

வங்காளத்தில் புகைப்பிடிக்கும் பழக்கம் சாதாரணமான ஒன்று. நமது வீடுகளில் பெரியவர்கள் வெற்றிலைப் பாக்குபோடுவது போல. அங்கு பெரியபணக்கார வீடுகளில் புகைப்பிடிக்கும் குழாய்கள் பல இருக்கும். ஒவ்வொரு ஜாதியினருக்கும் மதத்தினருக்கும் தக்கபடி தனித்தனிக் குழாய்கள் இருந்தன. ஒரு ஜாதியினர் உபயோகிப்பதை மற்றவர் உபயோகிப்பதில்லை.

இந்த விஷயம்தான் நரேனுக்குச் சுத்தமாகப் புரியவில்லை 'அது எப்படி- எல்லோரும் இறைவனால் படைக்கப் பட்டவர்கள். ஒரு ஜாதிக்காரர் இன்னொரு ஜாதிக்காரரிடம் சாப்பிட்டால் என்ன ஆகிவிடும்- ஒரு மதத்தில் இருப்பவர் பயன்படுத்துவதை இன்னொரு மதத்தினர் ஏன் பயன்படுத்தக் கூடாது-' என்றெல்லாம் அவன் யோசிப்பான்.

இதைப் பரிசோதிக்க முடிவெடுத்தான். முடிவெடுத்ததைத் துணிவுடன் நிறைவேற்றும் ஆற்றல் கொண்டவன் அல்லவா நரேன்!

உடனே அவன் ஒவ்வொரு ஜாதியினரின் புகைக்குழாய்களிலிருந்தும் புகைத்தான். முஸ்லீம்களின் புகைக்குழாயில் புகைத்தான். எனக்கொன்றும் நடக்க வில்லையே - என்று நினைத்தான். அடுத்து கிறிஸ்தவர்கள், பிறகு மற்ற ஜாதியினர்.... எல்லாம் ஒன்றாகவே அவனுக்குத் தெரிந்தது.

நரேன் இவ்வாறு ஒவ்வொரு புகைக் குழாயிலிருந்தும் புகைப்பதைக் கண்ட பெரியவர்கள் பதறிப்போய் அவனைக் கண்டித்தார்கள்.

ஆனால் நரேனோ, எல்லாவற்றையும் பரிசோதித்த ஒரு விஞ்ஞானி போல் அமைதியாக, எல்லாம் ஒரே மாதிரி யாகத்தான் சுவைக்கிறது. எனக்கொன்றும் வித்தியாசம் தெரியவில்லையே! என்று தைரியமாகக் கூறினான்.
